MIRAE ASSET MUTUAL FUND

Know Your Customer (KYC): The need to "Know Your Customer" is vital for the prevention of money laundering. In terms of the Prevention of Money Laundering Act, 2002, the Rules issued there under and the guidelines/circulars issued by SEBI regarding the Anti Money Laundering (AML Laws), all intermediaries, including Mutual Funds, have to formulate and implement a client identification programme, verify and maintain the record of identity and address(es) of investors.

Revision in Know Your Customer (KYC) Procedure w.e.f. January 1, 2012:

Pursuant to SEBI Circular No. MIRSD/ Cir-26/ 2011 dated December 23, 2011, SEBI (KYC Registration Agency) Regulations, 2011 and SEBI Circular No. MIRSD/SE/Cir-21/2011 dated October 5, 2011, regarding uniformity in the Know Your Customer (KYC) process in the securities market and development of a mechanism for centralization of the KYC records to avoid duplication of KYC Process across the intermediaries in the securities market and further to simplify KYC norms and make it more investor friendly, Mirae Asset Trustee Company Pvt. Limited, the Trustee to Mirae Asset Mutual Fund ("Mutual Fund"), with effect from January 1, 2012 (the "Effective Date"), has decided to make the following changes:

SEBI has introduced a common KYC Application Form for all the SEBI registered intermediaries viz. Mutual Funds, Portfolio Managers, Depository Participants, Stock Brokers, Venture Capital Funds, Collective Investment Schemes, etc.

For this purpose, KYC registration is being centralised through KYC Registration Agencies (KRA) registered with SEBI. Thus each investor has to undergo a uniform KYC process only once in the securities market and the details would be shared with other intermediaries by the KRA. CVL (CDSL Ventures Ltd.), who was retained by the mutual funds for centralised registration and record keeping of KYC records, has recently obtained SEBI registration as a KRA.

1. Requirement for the existing investors in mutual funds:

The existing investors in mutual funds who have already complied with the KYC requirement and have the KYC compliance letter issued to them by CDSL Ventures Limited are exempt from following the new KYC procedure effective January 01, 2012 but only for the purpose of making additional investment with any SEBI registered mutual fund.

If, however, the KYC compliant investors would like to deal with any SEBI registered intermediary other than mutual funds, they may have to follow the new KYC compliance procedure. AMFI committee shall provide a KYC update form covering the additional information as per the new uniform KYC norms and IPV for specific use by investors, who had complied with mutual fund KYC with CVL prior to 31st December, 2011. The KYC update form shall be uploaded on the website of the mutual fund, once it is available from AMFI.

2. Requirement for the new investors in mutual funds:

With effect from January 01, 2012, all investors other than KYC compliant investors as mentioned above are required to follow the new KYC compliance procedure as mentioned below while making any investments with the Fund:

- Fill up and sign the Common KYC application form [available on the Fund's web site i.e. www.miraeassetmf.co.in] (for individual investors or non-individual investors as appropriate) and carry out the KYC process including In-Person Verification (IPV) with any SEBI registered intermediaries including mutual funds
- At the time of transacting with the Fund, submit, **in person**, the completed KYC application form along with all the necessary documents as mentioned in the KYC application form with any of the offices of the distributors (qualified as per the following note), Registrar & Transfer Agent of the Fund or the Fund; and
- Obtain a temporary acknowledgement for submission of all the documents and completion of IPV;

MIRAE ASSET MUTUAL FUND

Note: As per the SEBI circular MIRSD/Cir-26/2011 dated December 23, 2011, it is mandatory for SEBI registered intermediaries to carry out “In-Person Verification” (“IPV”) of any investor dealing with a SEBI registered intermediary. The Mutual Fund may also undertake enhanced KYC measures & due diligence based on the internal client due diligence policy to commensurate with the risk profile of the investors.

For investments in a mutual fund, the Asset Management Companies, Registrar and Transfer Agents of mutual funds and distributors which comply with the certification process of National Institute of Securities Market or Association of Mutual Funds in India and have undergone the process of “Know Your Distributors” are authorised to carry out the IPV. Unless the IPV process is completed, the investor will not be considered as KYC compliant under the new KYC compliance procedure and hence will not be permitted to make any investment in the Fund.

For investors proposing to invest with the Fund directly (i.e. without being routed through any distributor), IPV done by a scheduled commercial bank may also be relied upon by the Fund.

a. Attestation of documents and IPV shall be conducted only by the authorised employees of AMC, the RTA appointed by the AMC and the distributors who comply with the certification process of National Institute of Securities Market (NISM) or Association of Mutual Funds in India (AMFI) and have undergone the process of ‘Know Your Distributor (KYD).

b. AMFI registered distributors also need to ensure that their registration is valid and have furnished necessary mandatory requirements such as self declaration, etc.

c. The following shall be recorded on the KYC form;

I. Name of the person doing attestation of documents/IPV, his designation, organization, his signatures and date of IPV.

II. ARN code and name of the distributor in case of attestation/IPV done by a valid ARN holder.

III. In case the attestation/IPV is done by a sub broker, the sub broker conducting the attestation/IPV shall:

(i) Comply with the certification process of National Institute of Securities Market (NISM) or Association of Mutual Funds (AMFI) and have undergone the process of ‘Know Your Distributor (KYD).

(ii) Affix on the KYC application form, in addition to his ARN code, the ARN code of the main distributor and the sub broker code allotted to him by the main distributor.

d. In case of attestation/IPV done by a sub broker, the main distributor under whose code the folio is opened shall also be responsible for the KYC process, including the IPV, conducted by the sub broker.

e. In case of applications received as “Direct” (not through a distributor), mutual funds may rely on attestation/IPV performed by an authorised official of a scheduled commercial bank.

IV. INVESTMENT VALUATION NORMS FOR SECURITIES AND OTHER ASSETS

The Fund shall value its investments according to the valuation norms, as specified in the Eighth Schedule of the Regulations, or such guidelines / recommendations as may be specified by SEBI/AMFI from time to time.

The broad valuation norms are detailed below:

- **Traded Securities**

- When a security (other than Government securities) is not traded on any stock exchange on a particular valuation day, the value at which it was traded on NSE or any other stock exchange as the case may be, on the earliest previous day may be used provided such a day is not more than 30 days prior to the valuation date.
- Traded securities shall be valued at the last quoted price on The National Stock Exchange (NSE). However, if the securities are not listed on NSE, the securities shall be valued at the price quoted at the exchange where they are principally traded.
- When on a particular valuation day, a security has not been traded on NSE but has been traded on another stock exchange, the value at which it is traded on that stock exchange shall be used.

- **Thinly Traded Securities / Non-Traded Securities / Unlisted Securities**

- **Thinly Traded Equity / Equity related securities**

When trading in an equity / equity related security (such as convertible debentures, equity warrants, etc.) in a month is less than Rs. 5 lakh and the total volume is less than 50,000 shares, it shall be considered as a thinly traded security and valued accordingly.

Where a stock exchange identifies the "thinly traded" securities by applying the above parameters for the preceding calendar month and publishes / provides the required information along with the daily quotations, the same can be used by the Fund.

If the share is not listed on the stock exchanges which provide such information, then it will be obligatory on the part of the Fund to make its own analysis in line with the above criteria to check whether such securities are thinly traded which would then be valued accordingly.

In case trading in an equity security is suspended upto 30 days, then the last traded price would be considered for valuation of that security. If an equity security is suspended for more than 30 days, then the AMC / Trustees will decide the valuation norms to be followed and such norms would be documented and recorded.

- **Non-Traded Equity Securities**

When a security (other than Government securities) is not traded on any stock exchange for a period of 30 days prior to the Valuation Day, the security is treated as non-traded security.

- **Valuation of Thinly Traded / Non-Traded Equity Securities**

Non-traded / thinly traded equity securities shall be valued "in good faith" by the asset management company on the basis of the valuation principles laid down below:

- Based on the latest available Balance Sheet, net worth shall be calculated as follows :

MIRAE ASSET MUTUAL FUND

Net Worth per share = [share capital + reserves (excluding revaluation reserves) - Miscellaneous expenditure and Debit Balance in P&L A/c] Divided by No. of Paid-up Shares.

- Average capitalization rate (P/E ratio) for the industry based upon either BSE or NSE data (which should be followed consistently and changes, if any, noted with proper justification thereof) shall be taken and discounted by 75% i.e. only 25% of the Industry average P/E shall be taken as capitalization rate (P/E ratio). Earnings per share of the latest audited annual accounts will be considered for this purpose.
- The value as per the net worth value per share and the capital earning value calculated as above shall be averaged and further discounted by 10% for illiquidity so as to arrive at the fair value per share.
- In case the EPS is negative, EPS value for that year shall be taken as zero for arriving at capitalized earning.
- In case where the latest balance sheet of the company is not available within nine months from the close of the year, unless the accounting year is changed, the shares of such companies shall be valued at zero.
- In case an individual security accounts for more than 5% of the total assets of the scheme, an independent valuer shall be appointed for the valuation of the said security. To determine if a security accounts for more than 5% of the total assets of the scheme, it should be valued by the procedure above and the proportion which it belongs would be compared on the date of valuation.
- **Debt Securities:**

Debt papers valuation is broadly classified under two categories:

- a) More than 91 days to Maturity
- b) Less than or equal to 91 days to Maturity.

Papers covered under category a (>91 days to maturity) are marked to market on daily basis. For the said purpose aggregated Matrix is used. Aggregated Matrix is the average of the matrices of two agencies appointed by AMFI - Crisil and ICRA.

AMC is also required to classify its debt instruments under two categories for the purpose of valuation – Non banking Finance Company, PTCs (Pool), Real estate and Others (i.e. NPR and Others). Crisil and ICRA provide matrices for the above sectors separately. In total Crisil and ICRA provides four set of matrices as below

- i) Non Money Market Other/Traditional Matrix
- ii) Non Money Market NPR Matrix
- iii) Money Market Other/Traditional Matrix
- iv) Money Market NPR Matrix

Papers covered under category b (<= 91 Days to maturity) are valued on amortization basis.

However, as per notification dated 21st February, 2012, the valuation of investments shall be based on the principles of fair valuation i.e. valuation shall be reflective of the realizable value of the securities/assets. 1.2 Valuation of Money Market and Debt Securities with Residual Maturity of Over 91 Days (As Per SEBI Circular No SEBI/IMD/CIR No.16/ 193388/2010)

In case any other type of FRN PTC structure, valuation methodology shall be provided by AMC on case to case basis.

- **Valuation of securities with Put/Call Options**

The option embedded securities would be valued as follows:

- **Securities with call option**

The securities with call option shall be valued at the lower of the value as obtained by valuing the security to final maturity and valuing the security to call option.

- **Securities with Put option**

The securities with put option shall be valued at the higher of the value as obtained by valuing the security to final maturity and valuing the security to put option.

MIRAE ASSET MUTUAL FUND

In case there are multiple put options, the highest value obtained by valuing to the various put dates and valuing to the maturity date is to be taken as the value of the instruments.

- **Securities with both Put and Call option on the same day:**

The securities with both Put and Call option on the same day would be deemed to mature on the Put/Call day and would be valued accordingly.

- **Unlisted Securities**

Investments in Unlisted securities shall be valued “in good faith” on the basis of the valuation principles laid down below till such time these are listed on a Stock Exchange:

- Based on the latest available Balance Sheet, net worth shall be calculated as follows :

Net Worth per share = [share capital + reserves (excluding revaluation reserves) - Miscellaneous expenditure and Debit Balance in P&L A/c] Divided by No. of Paid-up Shares.

- Average capitalization rate (P/E ratio) for the industry based upon either BSE or NSE data (which should be followed consistently and changes, if any, noted with proper justification thereof) shall be taken and discounted by 75% i.e. only 25% of the Industry average P/E shall be taken as capitalization rate (P/E ratio). Earnings per share of the latest audited annual accounts will be considered for this purpose.
- The value as per the net worth value per share and the capital earning value calculated as above shall be averaged and further discounted by 10% for illiquidity so as to arrive at the fair value per share.
- In case the EPS is negative, EPS value for that year shall be taken as zero for arriving at capitalized earning.
- In case where the latest balance sheet of the company is not available within nine months from the close of the year, unless the accounting year is changed, the shares of such companies shall be valued at zero.
- In case an individual security accounts for more than 5% of the total assets of the scheme, an independent valuer shall be appointed for the valuation of the said security. To determine if a security accounts for more than 5% of the total assets of the scheme, it should be valued by the procedure above and the proportion which it belongs would be compared on the date of valuation.

At the discretion of the AMC and with the approval of the trustees, an unlisted equity share may be valued at a price lower than the value derived using the aforesaid methodology.

- **Illiquid Securities**

- Aggregate value of “illiquid securities” of scheme, which are defines as non-traded, thinly traded and unlisted equity shares, shall not exceed 15% of the total assets of the scheme and any illiquid securities held above 15% of the total assets shall be assigned zero value:

Provide that in case any scheme has illiquid securities in excess of 15% of total assets as on September 30, 2000, then such a scheme shall within a period of two years bring down the ratio of illiquid securities within the prescribed limit of 15% in the following time frame:

- All the illiquid securities above 20% of total assets of the scheme shall be assigned zero value on September 30, 2001.

MIRAE ASSET MUTUAL FUND

- Mutual Funds shall not be allowed to transfer illiquid securities among their schemes w.e.f October 1, 2000.

• **Convertible debentures and bonds**

In respect of convertible debentures and bonds, the non-convertible and convertible components shall be valued separately. The non-convertible component should be valued on the same basis as would be applicable to a debt instrument. The convertible component shall be valued on the same basis as would be applicable to an equity instrument. If, after conversion, the resultant equity instrument would be traded *pari passu* with an existing instrument which is traded, the value of the latter instrument can be adopted after an appropriate discount for the non-tradability of the instrument during the period preceding the conversion. While valuing such instruments, the fact as to whether the conversion is optional or not shall also be factored in.

• **Warrants**

In respect of warrants to subscribe attached to instruments, the warrants can be valued at the value of the share which would be obtained on exercise of the warrant as reduced by the amount which would be payable on exercise of the warrant. A discount similar to the discount to be determined in respect of convertible debentures shall be deducted to account for the period, which must elapse before the warrant can be exercised.

• **Repo transactions**

Where instruments have been bought on 'repo' basis, the instrument shall be valued at the resale price after deduction of applicable interest up to the date of resale. Where an instrument has been sold on a 'repo' basis, adjustment shall be made for the difference between the repurchase price (after deduction of applicable interest up to the date of repurchase) and the value of the instrument. If the repurchase price exceeds the value, the depreciation shall be provided for and if the repurchase price is lower than the value, credit shall be taken for the appreciation.

Rights Entitlement / Shares

Until they are traded, the value of "rights" shares shall be calculated as:

$$V_r = n \div m \times (P_{ex} - P_{of})$$

Where V_r = Value of rights

n = no. of rights offered

m = no. of original shares held

MIRAE ASSET MUTUAL FUND

Pex = Ex-rights price

Pof = Rights Offer Price

Where the rights are not treated *pari passu* with the existing shares, suitable adjustments shall be made to the value of the rights. Where it is decided not to subscribe for the rights but to renounce them and renunciations are being traded, the rights can be valued at the renunciation value.

- **Foreign Securities**

On the Valuation Day, the securities issued outside India and listed on the stock exchanges outside India shall be valued at the closing price on the stock exchange at which it is listed or at the last available traded price. However in case a security is listed on more than one stock exchange, the AMC reserves the right to determine the stock exchange, the price of which would be used for the purpose of valuation of that security.

Further in case of extreme volatility in the international markets, the securities listed in those markets may be valued on a fair value basis. Due to difference in time zones of different markets, in case the closing prices of securities are not available within a given time frame to enable the AMC to upload the NAVs for a Valuation Day, the AMC may use the last available traded price for the purpose of valuation. The use of the closing price / last available traded price for the purpose of valuation will also be based on the practice followed in a particular market. In case any particular security is not traded on the Valuation Day, the same shall be valued on a fair value basis by the Valuation Committee of the AMC.

On the Valuation Day, all assets and liabilities denominated in foreign currency will be valued in Indian Rupees at the exchange rate available on Bloomberg / Reuters / RBI or any other standard reference rate at the close of banking hours in India. The Trustees reserve the right to change the source for determining the exchange rate. The exchange gain / loss resulting from the aforesaid conversion shall be recognized as unrealized exchange gain / loss in the books of the Scheme on the day of valuation. Further, the exchange gain / loss resulting from the settlement of assets / liabilities denominated in foreign currency shall be recognized as realized exchange gain / loss in the books of the scheme on the settlement of such assets / liabilities.

An asset shall be classified as "Non-Performing" if the interest and / or principal amount have / has not been received or have / has remained outstanding for three months from the day such income / installment has fallen due.

Valuation in respect of Non Performing Assets (Debt Securities) will be done in accordance with "SEBI guidelines for identification and provisioning for NPAs" issued vide circular dated 18th September, 2000 bearing reference no. MFD/CIR/8/92/2000 as modified by SEBI circulars both dated 28th March, 2001 bearing reference no. MFD/CIR/13/087/2001 as well as MFD/CIR/14/088/2001 and will form a part of this valuation policy.

For this purpose, while major expenses like management fees and other periodic expenses shall be accrued on a day to day basis, other minor expenses and income may not be so accrued, provided the non-accrual does not affect the NAV calculations by more than 1%.

Recording of Securities and Units in the books

Any change in the portfolio of securities and in the number of Units held shall be recorded in the books not later than the first valuation date following the date of transaction. If this is not possible given the frequency of the Net Asset Value disclosure, the recording may be delayed up to a period of seven days following the date of the transaction, provided that as a result of the non-recording, the Net Asset Value calculations shall not be affected by more than 1%. In case the Net Asset Value is affected by more than 1% due to such non-recording of transactions, the investors of the Scheme, as the case may be shall be paid the difference in the amount as follows:

- If the investors are allotted units at a price higher than Net Asset Value or are given a price lower than Net Asset Value at the time of sale of their units, they shall be paid the difference in amount by the Scheme.
- If the investors are charged lower Net Asset Value at the time of purchase of their units or are given higher Net Asset Value at the time of sale of their units, asset management company shall pay the difference in amount to the Scheme. The lending transactions may require procurement of collateral which would exceed in value, the value of the securities lent. The collateral can be in the form of cash, bank guarantee, government securities or certificate of deposits or other securities as may be agreed.

If permitted by SEBI under extant regulations/guidelines, the scheme may also engage in stock borrowing.
